REPUBLICANS GET TOGETHER ON NEW TAX COMPROMISE

Plan, Drawn At Special meeting, Will Be Present- ed To Harding

WASHINGTON, Oct. 6.—A compromise tax revision plan which is expected to practically solidify the divided Republican majority of the senate will be submitted to President Harding today by Senator Lodge, the Republican leader.

The compromise, which will also be presented to the senate finance committee today as a substitute for the pending tax bill, was worked out and agreed to at a meeting last night of ten Republican senators. Besides Senator Lodge there were present most of the "agricultural bloc" Senators: Capper of Kansas; McNary of Oregon; McCormick of Illinois; Kellogg of Minnesota; Lenroot of Wisconsin; Sterling of South Dakota; Willis of Ohio; Harrel of Oklahoma and Odie of Nevada.

The meeting was held at Senator Capper's residence and lasted until a late hour. The compromise agreed to embraces the following essential provisions:

1.—Retention of the higher income surtaxes from fifty per cent downward which with the eight per cent normal income tax would impose a maximum of 58 per cent tax on large incomes; the pending bill provides for the abolition of all incomes surtaxes above 32 per cent.

2.—Reduction of the lower surtaxes from 32 per cent downward, with a sliding scale that would permit the greatest reductions to be made in those surtaxes imposed upon small incomes.

3.—Repeal of the so-called new nuisance taxes, including candy, furs, jewelry, ice cream, eye glasses, sporting goods, etc.

4.—Adoption of the proposal of Senator Calder, Republican, New York, for a tax of \$6 on whiskey withdrawn from warehouses or bond.

5.—Repeal of the excess profits tax as of January 1, 1922 as provided by the pending bill and the house tax bill.

6.—Retention of the capital stock tax, instead of its repeal as provided by the pending bill.

7.—Repeal of the transportation taxes on freight, pullman and passenger rates, instead of the retention of fifty per cent of them, as provided by the pending bill.

8.—Retention of the 15 per cent tax on corporations as provided in the pending bill, the house bill fixed this tax at 12 1/2 per cent.

It was unanimously agreed to oppose the plan of Senator Smoot, Republican, Utah, for a manufacturers sales tax of 3 per cent.

Senators McNary and Lenroot were supported in their contention that the Smoot plan would discriminate against the agricultural interests and in favor of the manufacturers.

The meeting was reported to have been harmonious and it was predicted the compromise would prove acceptable to the entire Republican side with the possible exception of Senators Borah, Ida, Kenyon, Iowa, La Follette, Wisconsin, Norris, Nebraska, and Ladd, North Dakota.

Even Senator Smoot after securing a vote on his proposal was expected to swing in with what was confidently that would develop into the Republican majority tax plan it was stated.

Fair And Warm For
Third Series Game

WASHINGTON, Oct. 6.—Generally fair and warmer weather will be on tap for the third game of the world series tomorrow, the chief forecaster of the United States weather bureau predicted today.

NEW YORK, Oct. 6.—Not one whit abashed by their failure to score on Earl Mays in the opening number of the World's championship series, the Giants today returned to the fray expectant and hopeful. They think they can win behind either Neft or Toney for they figure no Yankee pitcher will give them as tough an argument as Mays did.

The Yankees are supremely confident. They not only got the jump on

LLOYD GEORGE IS AGAIN PERSONALLY AT CABINET HEAD

LONDON, Oct. 6.—Premier Lloyd George today presided at the first cabinet meeting since his return from his vacation. The meeting was one of the most important in years. Three matters of domestic and international importance were on the schedule:

1.—Washington conference, including the selection of the British delegation and the drafting of a note in reply to Secretary Hughes' note which accompanied the text of the agenda.

2.—Unemployment situation and a survey of the recommendations of the various government department heads.

3.—Irish peace conference and the selection of the British delegation.

It was expected that three different committees would be appointed to deal with the three questions.

For the next few days, however, the premier will be in full charge of activities of the matters in question. The Pall Mall Gazette, which is very close to Premier Lloyd George and friendly to his political interests, reopened the question of the premier's presence at the Washington conference today.

These Had Perfect School Attendance

The Wolf Creek school attendance for the month of September averaged 94 per cent. Following are the pupils that were neither tardy or absent: Harry Hadman, Ethel Hyatt, Fred Dawnes and Virginia Hardman.

The pupils having the best grades for September was Miss Miriam Church of the Fourth grade. Her average was 96 per cent.

THESE ARE BUSY DAYS FOR JOHN D'S SON-IN-LAW

Latest study of Harold F. McCormick, taken a few days ago at his desk, and the McCormick home in Chicago, now besieged by reporters.

Harold F. McCormick, head of the International Harvester Company and son-in-law of John D. Rockefeller, recently verified the rumor that he and Mrs. McCormick, formerly Edith Rockefeller, had separated. Mrs. McCormick recently returned from Europe after a stay of eight years. McCormick is known internationally as a patron of art. He has long been interested in pro-

moting opera and aiding opera stars. He sponsored Mme. Conna Walska's ill-fated attempt to star in opera. Mme. Walska,

Polish prima donna, came to this country a year or more ago and since then married Alexander Smith Cochran.

NEWCOMERTOWN MAN DIES THURS. AT THE HOSPITAL

John Byrne, of Newcomertown, aged 71, who was brot to the City hospital Tuesday suffering from pneumonia died at the hospital Thursday morning. He had been in a serious condition for several days. Little hope was entertained for his recovery before he was taken to the hospital for treatment.

An ambulance from Newcomertown took the body home Thursday noon. The funeral arrangements had not been completed late Thursday.

FOUR ARRESTED ON DRINKING CHARGES

Four plain drunks were arrested Wednesday evening and each fined \$10 and costs and released. John King, of New Castle Pennsylvania, after spending all of Wednesday in the city prison was released upon payment of \$7, all the money he possessed.

The other three men were James Beal, Howard, Ohio, Charles Hall, and Clem Stewart, all of this city.

Wood Leaves Army

WASHINGTON, Oct. 6.—Major General Leonard Wood formally retired today from the United States army, subsequent to his appointment as Governor General of the Philippines. It was learned today. With General Wood's retirement from active service the last legal barrier to his being named to the important Pacific post will have been removed.

Labor Riots In London

LONDON, Oct. 6.—There was a serious encounter between demonstrating unemployed and police in Trafalgar Square this afternoon when part of 10,000 demonstrators, who previously had peaceably scattered, rushed the police, who charged with their batons. Several were hurled at the officers. Several men were injured on both sides.

Turks Defeated

LONDON, Oct. 6.—After an offensive on a large scale was undertaken by Turkish infantry and cavalry near Eskli-Shehr the Greeks counter attacked and dispersed the enemy with heavy casualties, according to a central news dispatch from Athens today.

The dispatch said the Turks left many dead on the battle field and abandoned their war material.

FOSTER TELLS OF A VISIT TO RUSSIAN MUNITION FACTORY

Describes Plant And Life Of Workers Under Military Rule

EDUCATION THRIVES

Editor's Note: Mr. Foster, recently returned from Russia, where he spent four months as a correspondent. He describes in the following article a visit to a Russian munition factory.

BY WM. Z. FOSTER

NEW YORK, Oct. 6.—One day another American and I had the pleasure of addressing a large body of munition workers, and of looking about the plant in which they are employed, not far from Moscow. The incident was so typical of present-day conditions in Russia that perhaps American workers will be interested in reading an account of it.

After a 40-minute break-neck auto drive from town we arrived at the factory. It is a powder plant, specializing chiefly in making explosives and filling shells. We were met by a very friendly group of workers and escorted at once into the factory-meeting hall of the Communist group, where we had a rattling good meal of black bread, butter, milk, honey, and—fish. In passing I may say that in every institution in Russia where people congregate, organized Communist groups, equipped with meeting places, newspapers, etc., are to be found. They look after the political education of the people in their respective spheres.

Our meal finished, we started to make a tour of the plant. It was founded in the days of the czar, but at that time, however, it was not large. Only with the coming of the revolution did it take on importance. This was partly because the danger of invasion forced the general removal of munition plants from the western towns to Moscow and other more central locations.

UNCLE OF LOCAL MAN DIES AT HIS HOME IN KANSAS

Mr. and Mrs. D. D. Boyd, 127 Parkway, received a telegram Thursday from relatives in Oswego, Kan., concerning the death of Mr. Boyd's uncle, Wesley Elchorn, aged 57, who died at his home in Oswego, Wednesday night following a week's illness from typhoid fever.

Mrs. Elchorn was the daughter of Mr. and Mrs. S. P. Boyd, of Fresno. Her husband, deceased, never lived in Coshocton-co. Mr. Elchorn visited friends and relatives in this county several times.

Mr. Elchorn was a wealthy and respected farmer of Kansas. He was widely known in Oswego.

He is survived by his widow and many relatives in Coshocton and in the county.

The message did not state when the funeral services would be held. He will be buried at Oswego.

WENNESDAY'S CROWD AT COUNTY FAIR BREAKS RECORDS; PAGEANT PLEASES; STOCK SHOW SUCCESS

Prospects For Thursday Crowd Were Excellent With Weather Man Behaving Perfectly—Pageant And Night Fair Closes Tonight—Fireworks Added New Attraction

One of the biggest Wednesdays in the history of the Coshocton-co fair was enjoyed this year. It was the big day both from the number of people admitted to the grounds, and the number of attractions on the grounds.

More than 5,000 tickets were sold at the secretary's office on the grounds, not including membership tickets. Many more tickets were sold down town and at West Lafayette. Besides the people admitted on paid tickets, all of the school children of the county, Civil War veterans and their wives, and county infirmaries inmates were admitted free. It was estimated that the crowd that entered the fair grounds Wednesday would reach nearly 8,000 persons.

Prospects for Thursday were exceptionally. The weather could not have been better, and indications were Thursday noon that the ticket sale would be one of the largest on record.

Through the efforts of the Coshocton-co Agricultural Society, a night fair that eclipsed any similar spectacle ever seen here, was presented on the racetrack Wednesday evening.

The first event was the stock parade, nearly a mile in length including many blue ribbon winning horses, mules and cattle. Under the bright lights erected for the purpose, the prize animals presented a wonderful appearance as they passed in file before the grand stand.

To sections of the grand stand were packed with spectators, and the third section, to the south, was filled with the children who took part in the mammoth health pageant. Beautiful costumes were worn by the children, and the clever dances and drills done by the children were well received.

After the pageant there was a complete display of attractive fireworks, lasting the greater part of an hour. The air was chill during the evening but no one seemed to mind, and the two sections of the grand stand were packed from a half hour before the

CROSS PETITION IN DIVORCE ACTION IS FILED BY GEERTS

One of the forms of amusement indulged in by Lucy Geerts was that of throwing dishes at her husband, according to the answer and cross petition filed by Edward E. Geerts, to the suit brot for divorce by Lucy Geerts in probate court.

Justice E. G. Abbott, of Coshocton, becomes a defendant in the cross petition of Edward Geerts thru his action in issuing a replevin warrant which permitted the plaintiff in the divorce proceedings to seize household goods belonging to the defendant.

After alleging in her petition that certain property in Fresno was owned by the defendant Lucy Geerts instituted the replevin proceedings and seized as her own, a part of that property according to the petition of Edward Geerts.

Geerts asks in his petition that Justice Abbott be restrained from compelling the replevin, and that the plaintiff be enjoined from disposing of any of the property procured thru the replevin warrant until the divorce case is settled.

The couple were married February 8, 1916 instead of February 18, as stated in the plaintiff's petition, according to the defendant, and have two children.

Edward Geerts asks that he be granted the divorce, and the custody of the two children. Homer Durand represents the defendant.

SMALL CROWD AT RACES ENJOY THE WEDNESDAY CARD

Thirty-One Horses Start In
Three Events With Local
Steeds Winning

GOOD PROGRAM TODAY

Six hundred people witnessed the first day's racing program at the fair Wednesday. Starter Phillips, of Xenia and the judges occupied the new judges' stand, which has been constructed of concrete, on the same side of the track as the grandstand. The timers were comfortably housed in the new concrete timers' stand, located on the site of the old judges' stand across the track.

Thirty-one horses started in the three races of the afternoon. The first race was the 2.24 pace and was won by Hugh C., bay gelding from the Past stables at London, Ohio. He finished first in two heats, but was nosed out by Milton Wood in the third. All three heats were paced in 2.17 1/4. Thirteen horses started in this event, but Billy Grotton, a Chicago entry, fell while getting away, unseating the driver. She paced the first lap after regaining her feet and was stopped with difficulty in front of the grandstand.

The second event was won by Dr. G. P. Curry's horse, Bobby Onward, driven by B. F. Buzzard. After taking the first heat in the 2:21 trot the Coshocton horse was nosed out in the second heat by High Seven, of the Linson stables at Grove City. The third heat was a race between the two horses, and at the quarter it looked bad for Bobby Onward. Buzzard drove him into a break and brot him back on his feet alongside the leading Linson horse half way down the stretch. Another break put him several feet to the good, and he settled back on his feet in plenty of time to get under the wire in first position amid the cheers of the spectators.

The last race, the 2 1/4 pace was taken easily by Van Burn, chestnut gelding of the Vanatta stables at Newark. After Don, a Coshocton horse owned and driven by B. F. Buzzard was second in this race. The best time was 2.14 1/4.

BANKERS EXPRESS
BELIEF THAT GOOD
TIMES ARE COMING

LOS ANGELES, Calif., Oct. 6.—The economic policy commission of the American Bankers Association, believes that the country is on the verge of a new prosperity era of economic prosperity.

In a report to the convention today the commission said:

The commission recognizes with satisfaction that the worse of the credit stringency seems to be over. Natural recuperative forces are now making for recovery and there is every reason to believe that when wages have readjusted and normal balance is re-established between industries and between nations our country will enter a new era of prosperity and advancement."

The optimistic forecast of the commission was echoed by D. R. Crissinger, comptroller of currency, who spoke today before the national bank section of the convention. Crissinger told the bankers:

"It is my pleasure to bring you word of a vast improvement in the general business of the country. The outlook by whatever standard judged is better now than in many months."

Crissinger declared the financial fabric of America has been so strengthened that our banks possess resources aggregating more than all the rest of the banking resources of the world.

"The truth is, it seems to me," Crissinger said, "that if we will be fair with instructions that have served us well, we will have to admit that they are stronger, sounder, more logical than we ourselves believed them to be."

Circumstances demand, Crissinger said, "That America now assume a role of leadership. The rehabilitation of Europe is the key to our whole economic and industrial situation. We cannot effectively help to rehabilitate Europe by merely doing out aid without system or foresight. Our part of leadership must be played by using our influence to induce Europe to help herself."

A Stubborn Cough
Loosens Right Up

This home-made remedy is a wonder for quick results. Easily and cheaply made.

Here is a home-made syrup which millions of people have found to be the most dependable means of breaking up stubborn coughs. It is cheap and simple, but very prompt in action. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, throat tickle, bronchial asthma or winter coughs.

To make this splendid cough syrup, pour 2 1/2 ounces of Pinex into a tin bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you get a full pint—a family supply—of much better cough syrup than you could buy ready-made for three times the money. Keeps perfectly and children love its pleasant taste.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its prompt healing effect upon the membranes.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

PENROSE DECLARES
WAR ON THE SMOOT
SALES TAX PROGRAM

WASHINGTON, Oct. 6.—Senator Penrose started a drive today to block the growing movement in the senate in support of Senator Smoot's sales tax plan.

As chairman of the senate finance committee, Penrose declared the pending tax bill is only a "temporary emergency measure" and that after its enactment congress would be asked within a year to institute "new and novel" taxation methods which would meet the countries demand for a simplification of its tax system.

He declared he still regarded the sales tax with an open mind, but that "this is no time for innovations."

eastern points, and partly because of the great need of the Red Army for increased supplies of munitions during the long civil wars. At present the plant is very extensive, comprising scores of great modern buildings scattered over a 300-acre lot at such distances from each other that the explosion of one building (so it is hoped) would not touch off the rest. When going at full speed the plant employed about 3500 workers. In these piping times of peace the crew consists of only about 1000.

We were shown all about the place and initiated into some of the mysteries of munition making. We even filled a few shells ourselves. My companion, who was a skilled machinist, was greatly interested in the quality of the machinery and the work done by it. He pronounced both to be well above the average. In the black powder section we were equipped with gas-felt slippers, in which we clattered along the heavily carpeted floors, precautions to prevent our striking sparks with our shoes.

The power plant was in excellent shape and operating at full capacity. It consisted of four large engines, whose makeup emphasizes the grave difficulties the Russian workers are confronted with in carrying on production. One of the engines was constructed in England, one in Russia, and two in Germany. This heterogeneity of equipment, which is typical in Russian industry, indicates that the capitalists, when they were in power, drew upon the whole world for their machinery and industrial supplies. But now the workers, on the contrary, are compelled to rely almost entirely upon their own resources—which means, practically, that they have to rebuild industry from the ground up.

We were especially interested in a large group of workers whom we found loading great 300 pound cases of shells upon railroad cars. They

used the Armstrong method; that is, they hoisted the boxes on their backs and carried them in such a fashion a hundred yards or so to the cars. Through our interpreter we learned that these workers had recently had some "labor trouble." It appears that the man in charge of the work established 24 boxes as the daily task to be done, 12 to be carried in the forenoon and 12 in the afternoon of the eight-hour day.

The men complained at this arrangement and presented as their grievance that they wanted (in spite of their reduced rations) to perform more service for proletarian Russia. They demanded, not an increase in wages or a shortening of hours, but more work to be done in their eight-hour day. So the daily stunt was raised to 24 boxes in the morning and the same in the afternoon—an increase of 100 per cent. Then the men were satisfied.

A striking feature of the plant was the elaborate precautions to prevent and control fire. As our party entered the main gate we were subjected to a most rigid search for matches. Even the commander had to stand a "frisk." About the buildings there are all sorts of buckets and tanks for "first aid" fire work. In addition there is a splendid fire department, consisting of 140 men and eight engines, hose wagons and tanks. The men are uniformed, wearing the customary European brass helmets; they are also sub-

ject to military drill. Then we were shown some of the social and intellectual features of the place. A whole floor of a large building, formerly a barracks, had been remodeled and devoted to this phase of the plant's activities. There is a school of art, where painting, sculpture, carving, etc., are taught—and some of the work done is surprisingly good. Next to this is the technical school, where the workers are initiated into the mysteries of chemistry and other industrial sciences.

Closely by this is a large reading room with a library in connection—I should say it contained 5000 volumes at least. Next to that is the Room of Youth, where the younger workers have their club. And finally, at the end, is a large theatre where the workers themselves put on plays. Our guide told us that they had several operas in their extensive repertoire.

In addition to the activities mentioned, the employees also have singing societies, glee clubs, orchestras, etc. Whatever else may be said, at least it cannot be denied that the Communists are making every effort for thorough-going education of the people.

Quitting time having finally arrived, the workers from the plant all assembled at an open air theatre, placed in a fine grove of trees. There we and the other speakers regaled them for an hour or so with what we had on

The foolish man who built
his house on the sand

He gave an example in folly which anybody can understand.

It isn't so easy, however, to sense the mistake of trying to build the body on foods which lack essential nourishment.

Here, again, is a foundation of sand which gives 'way when the test comes.

Many a food that tastes good lacks honesty of nourishment to equal its taste. Thus it tempts the appetite into mistakes that often are costly.

Grape-Nuts is a food which helps build bodily endurance for life's stress and storm. The full nourishment of wheat and malted barley, together with the vital mineral salts so necessary to bone structure and red blood corpuscles, with phosphates for the brain, is retained in Grape-Nuts. The long baking process by which Grape-Nuts is made gives the food a natural sweetness and an unusual ease of digestibility and assimilation.

Served with cream or milk, Grape-Nuts is fully nourishing, and whether eaten as a cereal at breakfast or lunch, or made into a pudding for dinner, Grape-Nuts has a particular delight for the appetite. Sold by grocers.

Our word for it!

You'll never know how delicious Corn Flakes can be till you eat Kellogg's

Positively—the most joyously good any-time-cereal any man or woman or child ever put in their mouths! Such flavor, such crispness! Such big sunny-brown Corn Flakes! How you'll relish a generous bowl-filled-most-to-overflowing; and a pitcher of milk or cream!

Never was such a set-out! Never did you get such a universal vote as there'll be for Kellogg's Corn Flakes! Big folks and little folks will say "Kellogg's, please, mother!" Leave it to their tastes—and yours! Prove out all we say!

For, Kellogg's Corn Flakes are a revelation in flavor; a revelation in all-time crispness! Don't just ask your grocer for "corn flakes." That brings you most anything! Say KELLOGG'S CORN FLAKES—they're wonderful!

BANKS INVOLVED IN HAITI'S DIFFICULTY

WASHINGTON, Oct. 6.—Failure of the United States government to provide a definite policy for the development of Haiti in 1918 when pacification had been accepted by the marines was blamed for subsequent uprisings in the island republic by Roger L. Farnham, vice president of the national city bank of New York in testimony today before a special senate committee investigating the Haitian occupation.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by tuning up the liver and clearing the face of impurities.

Dr. Edwards' Olive Tablets are known by their olive color, 15c and 30c.

There is no comprehensive plan of development. The American representatives in Port au Prince and the Haitian government officers are deadlocked. Neither group can act without the consent of the other, and that is impossible," said Farnham.

Charges that the National city bank was responsible for many of the difficulties which led to the occupation of Haiti by the United States marines were being investigated by the senate committee.

Parham testified concerning the report acquisition by the institution of large holdings in the Banque Nationale d'Haiti, which formerly administered the Haitian treasury. The Union Patriotique d'Haiti charges that Haiti's internal troubles are largely due to the intimate connections between the New York bank and the fiscal agents of the Haitian government.

Practical Joker Is Again In Evidence

The identity of the correspondent, who by some reason or other, wrote in to the Tribune & Times-Age Wednesday and stated that a son was born to Mr. and Mrs. John Vensel, of West Lafayette, could not be established Thursday by either the management of the local paper or Mr. and Mrs. Vensel. A child was not born to Mr. and Mrs. Vensel as the correspondent stated.

Efforts were made by both the Tribune and Mr. and Mrs. Vensel Thursday to locate the party who wrote the article. There is a severe penalty provided by law to cover such cases.

To Make Rich Red Blood

Revitalize your worn-out exhausted nerves and increase your strength and endurance

Take Nuxated Iron; not metallic iron which people usually take, but pure organic iron—Nuxated Iron—which is like the iron in your blood and like the iron in spinach, lentils and apples. One dose of Nuxated Iron is estimated to be approximately equivalent (in organic iron content) to eating one-half quart of spinach, one quart of green vegetables or half a dozen apples. It is like taking extract of beef instead of eating pounds of meat. Nuxated Iron is partially digested and ready for almost immediate absorption and assimilation by the blood, while metallic iron is iron just as it comes from the action of strong acids on small pieces of iron filings.

Over 4,000,000 people annually are using Nuxated Iron. It will not injure the teeth nor disturb the stomach. A few doses will often commence to enrich your blood. Your money will be refunded by the manufacturer if you do not obtain satisfactory results.

Beware of substitutes! Always insist on having genuine organic iron—Nuxated Iron. Look for the letters N. I. on every tablet. Sold by all druggists.

STATE AND FEDERAL LIQUOR LAW CHIEFS ARE IN CONFERENCE

WASHINGTON, Oct. 6.—Ohio Prohibition enforcement problems and measures necessary to force more rigid observance of dry laws formed the subject of a conference today between Prohibition Commissioner Haynes and Joshua Russell of Columbus, Ohio, Ohio prohibition director.

The conference with Russell is one of several planned with directors of different states with the object of effecting a more complete compliance with the regulations issued by the internal revenue bureau and the prohibition unit.

Many state organizations are failing to co-operate fully with the federal authorities at Washington it was indicated today by new instructions sent to all directors by commissioner Haynes. He said the requirements of the bureau that careful check shall be made on permits issued for the liquor withdrawals are being ignored in some quarters. Haynes directed that infractions of the bureau rules must stop, and said that disciplinary action will be taken by the authorities supervising enforcement if further failures to co-operate actively, are noted.

Directors or other officials will be called upon to explain such laxity as inspections may show, are being counted announced by supervising officers.

WASHINGTON, Oct. 6.—The total claims against the government as the result of operation of the railroads during the war will probably aggregate \$1,087,000,000, Director General of Railroads Davis today reported to the president.

Director Davis reported that to October claims filed totaled \$856,000,000, the secretary claims having been filed by roads with a total mileage of 189,384, representing 78 per cent of the total mileage of 241,000 taken over by the government.

The Yanks are also 7 to 5 favorites to win today game no matter who pitches.

The sum and substance of the first game was that Douglas was good but Mays better.

No one knows for a certainty who will pitch today. As Mays was considered a sure starter for the Yanks yesterday, so Waite Hoyt, the Brooklyn lad is nominated by acclamation this morning.

Rumor persists that Bob Shawkey will be given his chance by Huggins this afternoon. The Yankees can afford to gamble a little, tho, of course, two straight is much better than an even break.

The Yanks expect to see Hoyt win if they can give him as many runs as

KENTUCKY GIRL WRITES LETTER

How She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Sunnyside, Ky.—"I suffered for more than two years with my back and nervousness, and was not able to help my mother do the housework. I took treatment from two doctors and they did not do me any good. Mother saw Lydia E. Pinkham's Vegetable Compound advertised in the paper and I took about ten bottles. It has done me a great deal of good. I weigh 138 pounds and am in good health. I will gladly recommend Vegetable Compound to anyone who suffers with the troubles which I had, and you are welcome to publish my testimonial."—VELMER HENDRICK, Route 1, Sunnyside, Ky.

To many American girls life is often a heavy drag in consequence of illness, and every mother should heed the first manifestations, such as cramps, back-aches, headaches and nervousness as Mrs. Hendrick did for her daughter, and give Lydia E. Pinkham's Vegetable Compound a trial. For over forty years this fashionable root and herb medicine has been relieving women of just such troubles.

Write Lydia E. Pinkham Medicine Co., Lynn, Mass., about your health.

In "Everlasting Dishonor"
CONSISTENCY has never frightened Senator Lodge. The fact that he stoutly maintains a certain position today is no proof that tomorrow he will stand on the same ground. In fact, it would be almost prima facie evidence that he will stand elsewhere tomorrow.

That our German relations are soon to come up for discussion in the senate moves The New York World to say that "Even a limited debate on the German treaty will afford to Senator Lodge the opportunity to reconcile his 1918 opinion about a separate peace with his 1921 opinion."

Continuing The World says in this connection: "In 1918 certain Republican critics of Mr. Wilson belonging to the Roosevelt faction of the party had invented an entertaining falsehood to the effect that Mr. Wilson might make a separate peace with Germany after the war was won, and that this was his reason for not entering into an alliance with the belligerent nations associated with the United States. Among those who pretended to take this fake seriously was Henry Cabot Lodge, then ranking Republican member of the Senate Committee on Foreign Relations. Senator Lodge's horror was so great that he gave expression to it in these words:

The intent of Congress and the intent of the President was that there could be no peace until we could create a situation where no such war as this could recur. We cannot make peace except in company with our allies. It would brand us with everlasting dishonor and bring ruin to us also if we undertook to make a separate peace.

"Senator Lodge is not afflicted with what Burke described as 'that chastity of honor that felt a stain like a wound.' His political career has never been marred at any stage by devotion to principle, and we need waste no time in wondering why the 1921 Lodge has repudiated the 1918 Lodge. But what the Senator from Massachusetts said in 1918 expressed the general Republican opinion about peace. It must be made in company with our allies. To desert them after the war was won and the time had come to guarantee the peace that had been gained on the battlefield 'would brand us with everlasting dishonor.' Yet the brand of 'everlasting dishonor' has now been erected into a foreign policy by a Republican President and a Republican Secretary of State at the demand of a Republican Senate, the leader of which is Henry Cabot Lodge.

"There must be a profound and convincing reason for this dramatic change, even tho there has been no public explanation. Was the victory so complete that the Hardings and the Lodges now think it safe and profitable to desert the Allies? Or do they regard the Allies themselves as potential enemies? Or do they feel that consistency compels them to adopt a policy of 'everlasting dishonor' because Mr. Wilson adopted a contrary policy?

"To find a parallel to this procedure one must turn to the writings of Niccolo Machiavelli but when Machiavelli counselled the Prince to keep faith with nobody, he had in mind the concrete advantages to be gained by breaking faith. An ally was not to be betrayed for light and insufficient reasons, but if the adherence of a powerful enemy could be gained by the sacrifice of a less powerful friend, that was a praise-worthy business.

"In the matter of the German treaty, however, the Harding Administration has abandoned the Allies without obtaining anything in return. We can expect no gratitude from Germany, for we have taken a pawnbroker's advantage of her extreme adversity. We have adhered to everything that is harsh and humiliating in the Treaty of Versailles while rejecting everything which might bring a ray of hope to a great people who have been delivered into economic bondage for forty years.

"Even Machiavelli would be shocked by the Harding treaty with Germany—not by its duplicity but by its stupidity. Private damage claims against German property are validated by this treaty, and that is all the Administration has to show for the 'everlasting dishonor' which it has negotiated in Berlin."

HOW TO INCREASE WEIGHT AND PUT ON SOLID STAY-THERE FLESH

What difference does it make to you that a touch of color is appearing in your cheeks and that your complexion ceases to become a task and is a pleasure? Notice that never before in your whole life have you enjoyed living as you do today. Weigh yourself at the end of one month and let the scales tell the story.

Evans' Triple Phosphates is something new and something that really does what is claimed for it. Start to take it today with each meal and in four days you'll know that you are growing more robust and feel stronger and more active. Continue with the treatment faithfully for 10 days and note with satisfaction that your nerves are growing more responsive. Your ambition does not lag but is cheerfully obedient to your wishes.

PEOPLE'S FORUM

A ONE-MAN GOVERNMENT

Editor the Tribune: Foreign governments owe our government eleven billion dollars. America is staggering under a war debt of more than twice this amount and we are forced to borrow money to meet our obligations.

In the face of this deplorable condition President Harding and his financial secretary, Mr. Mellon, are allowing our foreign debtors to pay at their own convenience—if they are to pay at all—the billions they owe us and these officials are refusing altogether to collect a dollar of the hundreds of millions overdue in the form of interest.

The truth is that if our government pressed its collections Mr. Morgan and his friends would have to wait for the payment of the money due them. Consequently, Harding, Mellon, et al.,

the true friends of all-st, will make Uncle Sam stand aside until Morgan and his associates get theirs. In the meanwhile the people can be taxed to death to raise the money needed to run the government.

A few months ago Morgan and some of his Wall-st friends who had loaned money to the foreign nations visited Harding at the White House. Mr. Mellon was called in to get Morgan's view first hand. A few days later Mr. Morgan was back conferring with Mr. Mellon. Just eleven days later a bill was introduced in the senate giving Mellon absolute authority over all the loans of the government to the Allies.

I want to ask, what do the readers of the Tribune think of such an arrangement. I wouldn't be allowed to print what I think.

Origin of Name Wood.

That the first who bore the name Wood dwelt near or adjacent to a wood there can be no reasonable doubt, for the name first appears as "Atto-Walde," which meant "at the wood." Later the name became Attwood and in some cases this was changed to Atwood, which was later contracted to Wood. Sometimes it remained Atwood, a name that is still to be found in England.

BREAKING THE GRIP OF RHEUMATISM ON THE BODY

THURSDAY Health Talk,
No. 77
By R. E. Lynch, D. C., Ph. C.

—The principle characteristic of rheumatism is pain. There is dull and continuous aching, with severity and sharpness at times. If the pain would stop for intervals it might be bearable, but the fact that it is continuous is what makes rheumatism the most dreaded of diseases.

—The cause is weakened functioning of the kidneys, due to displacement of spinal joints at what is known as "kidney place." This displacement causes pressure on the spinal nerves. Chiropractic spinal adjustments restore the spinal joints to alignment and with the pressure removed the kidneys act normally and the disease gradually clears.

Suffered Two Years Then Found Help

"For two years prior to consulting a chiropractor I suffered with rheumatism. In August 1919 the pain was so intense that I was unable to move. After the first chiropractic spinal adjustment the pain eased. I continued until December when I was discharged. I have been shoeing horses ever since. BIG ULCER ALL HEALED

"Here is another letter that makes me happy," says Peterson, of Buffalo. "One that I would rather have than a thousand dollars."

"Money isn't everything in this world. There is many a big hearted, rich man who would give all he has on earth to be able to produce a remedy with such mighty healing power as Peterson's Ointment, to sell at all druggists for 25 cents a large box."

Read this letter, written February

Dear Sirs:— "I was an untold sufferer from an old running sore and had tried most everything without any relief from pain. A friend told me of your wonderful ointment and the first box took away the pain that had not left me before in years, and after using just nine dollars' worth of the salve I am cured. The ulcer was nine inches by six inches, is all healed and I can walk. Never, never will I be without Peterson's again."

"You may use this to recommend your ointment if you wish. I cannot say enough to praise it." Yours truly, Mrs. Albert Southcott, Lyndonville, N. Y. Mail orders filled by Peterson Ointment Co., Inc., Buffalo, N. Y.

of the massive and descriptive kind piling into insignificance by comparison.

"The Four Horsemen," as the title suggests, must deal with war, for the motive is destruction of life and wealth by the "Four terrible riders" typifying Conquest, War, Famine or Pestilence, and Death. But war after all is only the dramatic background for the development of character and the visualization of the psychology of three races of people, Spanish, French and German.

scale upon which "The Four Horsemen" was planned and the lavish way in which the details were worked out by the director, Rex Ingram, from the screen adaptation by June Mathis. The financial expenditure reached a million dollars and the people employed ran into thousands. Over six months were required to complete the screening, and then to cut down the eighty-five miles of film into an evening's entertainment was in itself a herculean task.

It has been proclaimed that the Metro Pictures Corporation's presentation of this remarkable picture at the Sixth Street promises to be the big amusement event of the year.

POLICE CHIEF MINCES NO WORDS WITH KLAN

SAN ANTONIO, TEX., Oct. 6.—There will be no parade by masked Ku Klux Klan men in San Antonio. This was the plain statement made to-

day by Chief of Police Mussey, and of Sheriff Tobin as the aftermath of the shooting of Sheriff Buchanan, near Waco yesterday, when he attempted to halt a parade of masked men.

Your attention, please! Your fall hat is waiting for you at D. O. Thompson's. New shapes and new "low prices." \$1.69, \$1.98, \$2.50, \$3.50, \$3.90.

INGROWN TOE NAIL TURNS OUT ITSELF

A few drops of "Outero" upon the skin surrounding the ingrowing nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh, and the nail turns naturally outward almost overnight.

"Outero" is a harmless, antiseptic, manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.

Eye Strain Is Always Serious

It should never be neglected. To put the matter off from day to day increases the seriousness of the case and adds to the consequent distress. No case of eye strain is slight enough to be neglected. We supply glasses to correct all degrees of eye strain.

Annual Rainfall.
There has been recalculation from recent data the amount of rain annually falling upon the earth's surface. It is found that it is equivalent to a layer of water of the uniform depth, for the whole globe, of about 35 1/2 inches. The amount falling on the land is equivalent to a uniform depth of 29 1/2 inches. Considering only the land which is drained by rivers flowing into the sea, it is calculated that only 30 per cent is returned to the ocean, and that the rest is removed by evaporation.

Steel Engraving.
Steel engraving is not named for any individual, but is a process of engraving lines on steel plates, from which prints are taken. Steel plates were first used for engraving about 1820. Between 1830 and 1870 this form of art enjoyed a great vogue. The lines are cut into the steel with a burin or graver, a four-sided piece of steel cut off obliquely at one end, producing a sharp point. After the lines are scraped out another tool is used to smooth out and burnish the design.

Concerning Wood Dreams.
To dream you are in the woods signifies wealth. To dream of a wood-cutter denotes good luck. To dream of a woodman signifies embarrassment. To dream of wooden shoes signifies a hasty journey. To dream of a wood snake denotes slander. To dream of wooden spoons shows an avaricious and hard-hearted neighbor. To dream of a woodpile shows a man in love with some ill-natured woman. To dream you are in a woodyard denotes a happy change of fortune.

Big Army of Gunners.
There were 3,365,122 licensed gunners in this country last year, and it is said that there are as many more who hunt game illegally. Of the total, there are about 200,000 women. Pennsylvania leads the list with 401,120 hunters' licenses granted.

First Trolley Car.
The first street car in the world operated with a wire suspended overhead, commonly known as a trolley wire, was in Kansas City, May 1, 1885, on a line south of Westport, an extension beyond what was then known as the "Westport Horse Car Line."

Mother Spoiled It All.
While I was still in school, I attended an evening party at the home of one of my girl friends, writes a correspondent of the Chicago Journal. When it was time to go, there were two fellows who wanted to take me home. I was very much flattered and accepted them both. One of the boys appealed to me strongly and I imagined myself deeply in love with him. But, as it was getting late, and my folks were worrying about me, my mother set out to meet me. When she saw me with a fellow on each arm, she was scandalized and started to scold, while the boys, very much frightened, ran away.

How "Doc" Won Promotion
By HAROLD SINCLAIRE
(© 1921, Western Newspaper Union)

Doc Newton was out of a job, and that situation was becoming chronic. Never a brighter, brisker, more accommodating fellow than he, with friends everywhere; but the railroad company did not seem to want him and the young fellow began to wonder if there was a black list, and why he had become its victim. The roundhouse foreman could have explained the situation, but he thought too much of Doc to hurt his feelings. The boys on the dog watch could have enlightened him, but they prized his company, and sincerely hoped that things might take a turn for the better.

The truth of it was that Doc got "wild" every time he touched a locomotive. To him an engine was a living thing; a vital steam horse that loved to show its paces; and never was there a more spirited driver than Doc.

Once he had run No. 24 on the wrong track where the depot grounds came low, and knocked off the smoke-stack. Later he had dumped locomotive and tender into the turntable pit.

"Was never a second late, clipped right along, and always claimed the right of way," explained Doc dauntlessly, deeming the minor mishaps mere trivial incidents.

Doc believed he was still on the "extra" list, but never got a call to go on duty for a whole month.

"Tell you, Ruth," he said to the fair devoted girl who was the one star of hope and beauty in his firmament, "I believe I'll try some other trade in some other town."

Ruth cried for a time. That ended Doc's determination. He went back to the roundhouse grimly.

"Then, nobody was working one long-to-be-remembered February night. It had been a hard day for railway service. Nothing was sent out from Crofton, but at seven o'clock, on regular schedule, Doc walked into the doghouse with the business-like air of a man ready for work and expecting it.

"What did you waste way down here in the snow for?" inquired Foreman Bros. "Oh, something may turn up," reported Doc, with his usual optimism.

Something did turn up—the biggest thing that had happened in the reckless, impetuous life of Mr. Doc Newton. It was the unexpected appearance of the president of the road.

"Bros," spoke the official sharply. "I must make the junction at Clay City in time to stop the night express on the Northern. Give me your best locomotive, a shallow caboose and a huster, and do it quick."

"I'm your man," spoke up Doc promptly, rising to his feet. "You'll have to fire," announced Doc ironically, taking his place at the lever.

"I did it once—I guess I can qualify this time," replied the official. They ran the first ten miles in fourteen minutes, but struck a trestle a foot under water, and blocked with drifted wood. Then, there was a whiplash away and the engine cleared a bridge just as a break in a dam carried its center pier away.

"We've made it," panted Doc, as they rounded a hill and came in sight of Clay City, to see the Night Express on the rival road steaming down the rails a mile distant. "They've given her the right of way," he shouted as they neared the interlocking tower.

"You must stop that train," cried the railroad magnate. "I'm going to," said Doc grimly. He halted squarely across the tracks, a barrier to the oncoming express.

The official jumped from 101, ran to the baited train, waved his hand to Doc, and the dripping engineer knew that he had won the day.

It was the talk of the road next morning. It was known that upon the Night Express was a railroad king, whom the president of the Southern had to intercept before he reached the city. A first interview with him blocked a ten million dollar deal with a rival railroad.

Two days later the president of the road walked into the doghouse. Doc sat patiently awaiting work.

"Newton," called out the official, advancing and extending his hand, "there's a check for a thousand dollars going through the mails for you from headquarters. You can go to work tomorrow on the regular list."

"What locomotive?" asked Doc. "Newton," replied the magnate, with a grim smile, "I wouldn't trust you with the slightest rattletrap on the road. After that dash three nights since, big as it was, I see that you would make the slowest accommodation a regular limited. No, you start in at \$2,500 a year as a division inspector."

"Ruth," observed Doc to his fiancée an hour later, "the president of the road won't trust me with a locomotive because I insist it show its paces. You will trust me with the latest little wife in the world, though, won't you?"

"Meaning me?" smiled Ruth lovingly. "Do you think I'm not proud of the honor? You showed what real running was anyway, and you are the only man on the road that could do it."

Inability.
"The airs of her, an' that shiftless 'n' lazy her husband' had to go to work for himself."—Judge.

The Bible Translation.
Lender said that "to talk well we must drop our Greek and Latin out of sight," and Coleridge thought it "a kind of providence that our Bible was translated about the time of the greatest strength of the language."—A. Bronson Alcott.

Test for Child's Hearing.
To test a child's hearing one can place a watch at a distance of two feet, and if the child cannot hear the ticking he should be taken to a specialist. A child with good hearing should be able to hear a loud whisper from a distance of twenty-five feet.

Life's Various Stages.
Youth scans the indications of Age and gambles deeply with life. Youth has all to gain and naught but life to lose. He learns the white hot heat of anger when but a child; later, the suffraging hopes and godlike quality of love. Come still later many stout throwbacks into realities and buffalings which temper judgment, but the forward march continues unabated. Zeal to live is paramount and always must Youth bow to Age's indications, slow movements, and paralyzing fears which are grouped with Age's uncertainties. So is a man molded and the wine of life aged.—"Uranus" in Chicago Tribune.

Removing Ink Stains.
Pyrophosphate of soda is recommended for the removal of ink stains. This salt does not injure vegetable fiber and yields colorless compounds with the ferric oxide of the ink. It is best to first apply talcum to the ink spot, then wash in a solution of pyrophosphate until both tallow and ink have disappeared. Another formula is to use a mixture of four parts of tartar and two parts of powdered alum. This is not injurious to cloth. Other stains also may be removed with it.

Hunter's Unpleasant Companion.
Alligator hunting in the tropics is always exciting, but when you're marooned on a muddy flat, with a wounded alligator for company, and your gun is jammed with mud—that is a real thrill. This is what happened to me, while the rest of my party were a quarter of a mile away. Nothing was left to do except throw mud in the alligator's eyes until I attracted the attention of my friends. After they had sunk about twenty bullets into that alligator we measured him and found him to be 22 feet long.—Chicago Journal.

WEDNESDAYS CROWD

(Continued from Page One)
program opened until the last light
of the fireworks had died out.

Every movement in the big com-
munity pageant, "Health Wins,"
which the children of the city will
give at the fair grounds Thursday
evening for the second time will have
its meaning so plain that everyone will
be able to know exactly the ideas
presented in each episode without ad-
ditional explanation. This is particu-
larly true, those in charge announce,
if too story of the pageant is read
carefully before going to the perfor-
mance. The theme concerns the use
of Health Helps by School Boy and
School Girl in order to reach Success
and Happiness. The plot, episode by
episode, as it will be presented is as
follows:

EPISODE 1.
Uncle Sam points out to School
Boy and School Girl what their coun-
try offers them. They see Good For-
time place upon the top of her Ameri-
can Altar Success and Happiness.
They have only to strive and climb
to reach both of these. To reach suc-
cess and Happiness, however, appears
so easy and certain that they do not
start the work at once. They allow
a friend to get their attention, he
causes him to think of them as and to
be entertained by him requires no
effort on their part. At last, this friend
is Disease, whose looks after him
low badly he really is. He is the
world's oldest and most sure fail-
ure. See, while he has been smiling
to the School Boy and School Girl,
his Gnomes have stolen from the Altar
of Fortune the steps by which the
children could reach Success and hap-
piness. But one of the Disease's pals
is the children Uncle Sam sees this
at once. The Propagandists of
the health clubs to show the children
what to do.

EPISODE 2.
The Propagandists arrive and by
their fighting movements give the
children courage. The propagandists
then go and get the Modern Health
Crusader, the children's protector
supplied by the Christmas Seals.

EPISODE 3.
The Modern Health Crusader sees
that by this time the Dirt Gnomes
have given the School Girl the tooth
ache. The Modern Health Crusader
gives the children the health rule,
"Call the Tooth brush." The Tooth
brush brigade arrives and overcomes
the germs. School Boy and School
Girl get back on the Altar Steps
and put it in place.

EPISODE 4.
Dirt attacks the children again and

succeeds in weakening them. The
Modern Health Crusader gives the
children another Health Rule, "Call
Water." The Water Sprites rush on
and overcome Dirt and Germs. The
children gain another one of the Altar
Steps, and put it in place.

EPISODE 5.
A friend of the Air tries his Gnomes
pawns the children with bad light.
The Modern Health Crusader gives the
children the necessary Health Rule,
"Call Sunlight." The Sunbeams
answers and put the Gnomes to rout.
The children get another Altar Step
and put it in place.

EPISODE 6.
A friend of the Air tries again. The
Modern Health Crusader supplies an-
other Health Rule, "Call Fresh Air."
The Fresh Air Sprites of the Great
Out Doors come and over power the
Gnomes. The children recover another
Altar Step and put it in place.

EPISODE 7.
Disease now tries what he considers
his trump card. He presents Candy
and Cigarettes to the children. When
they have the children's good will
they call "Sweet Bears" who pre-
sent the children with ten large
mountains of cake, sweets, pickles and
unwholesome food. The children ac-
cept these but when they begin to
feel badly as a result, they turn to
the Modern Health Crusader, who
gives them the Health Rule "Call Ex-
ercise." They run on weakening the
Gnomes. Then Exercise they recover
another step.

EPISODE 8.
The children feel the effects of their
bad eating yet. The Modern Health
Crusader comes to the rescue with the
Health Rule, "Call Milk and Good
Food." These in milk and the Gnomes
shak away. The children have another
step to put in place.

EPISODE 9.
The children are now able to think
clearly enough to become determined
to reach Success and Happiness
awaiting them on the Altar's top.
Disease knows that Laziness is now
the only one who can give him victory
over the children. Laziness succeeds
in halting the children, but the Mod-
ern Health Crusader is at hand with
the Health Rule, "Call Work." Work
responds and enables the children to
get another step.

EPISODE 10.
As a last desperate step, Disease
tries the Gloom Gnomes on the chil-
dren, for he knows that ugly and sour
thoughts help him. The children are
frightened but the Modern Health
Crusader saves the situation again by
supplying the Health Rule, "Call Good
Cheer." Good Cheer changes the
Gloom Gnomes into Happy Spirits to the

The list left for substitutes contains no tried players.

dismay of Disease Good Cheer, to make the happiness of the occasion everything it can be, now leads on Columbia and Ler Court of Holidays, who freshen the spirits of the children. The children put in place the final Alta, step which enable them to reach Success and Happiness. The germs are now almost crushed but in a final effort, they totter in a group against the children. However, they are so weak they only make a mon-
over and after a collapse they waddle away. Disease himself is so defeated that he disappears.

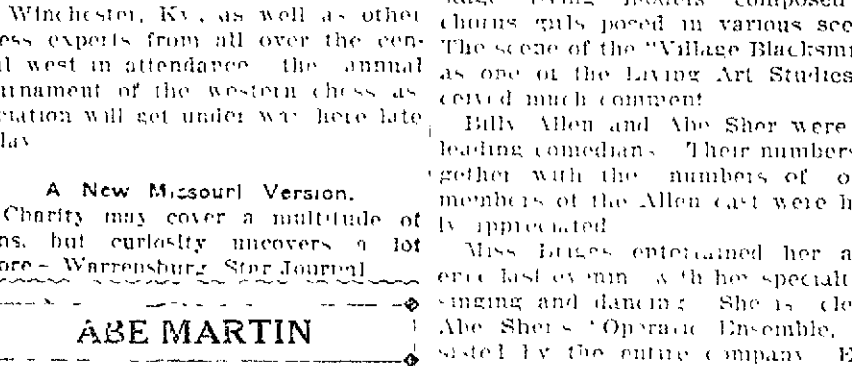

EPISODE 11.
With Disease and the Gnomes de-
feated and Success and Happiness
within reach, the Spirits of the Beau-
tiful in life appear to greet the chil-
dren. They suggest all the fine things
America will offer them. The Mod-
ern Health Crusader now conducts
Uncle Sam to the children who mount
the steps at the Altar and obtain Suc-
cess and Happiness. These they
share with Uncle Sam, thus aiding
in making him great. What the chil-
dren have done is declared by the
Sam to be a great victory, and he
summons his people to celebrate it.

**RED CROSS WORKING
FOR HEALTHIER U. S.**
Thousands Aided by Instruction
in Care of the Sick, Food Se-
lection and First Aid.

How the American Red Cross guides
thousands of persons to health is
shown in a summary of the society's
activities in the health field based
upon the annual report for the last fi-
scal year. Through its Nursing Service,
its Home Hygiene and Care of the
Sick courses, nutrition classes, First
Aid classes, Life-Saving classes and
Health Centers and in numerous other
ways designed to acquaint masses of
citizens with proper methods of living,
the Red Cross carried its message of
health into all parts of the country.

The work of the Red Cross during
the war in its traditional field of nurs-
ing, furnishing the military and naval
establishments of the nation with 18-
877 nurses, is well known. And there
are today 37,787 nurses registered with
the American Red Cross and subject
to call in emergency. During the fi-
scal year, 1,551 Red Cross nurses were
accepted for assignment to Govern-
ment service, 388 by the Army and
Navy and 1,163 by the United States
Public Health Service.

In addition to the nurses enrolled
by the Red Cross for Government ser-
vice, the Red Cross itself employed a
total of 1,348 public health nurses in
the United States and Europe. By far
the greatest number was employed in
the United States, 1,257, while 91 were
in foreign service.

Nehf fanned.
Rawlings out, Burns hit an easy grounder down to Peck who made the put out, unassisted.
NO RUNS, ONE HIT, NO ERRORS, ONE LEFT.

YANKS—Schang filed to Bancroft. Hoyt singled back of second base. Miller out. With fans begging for a hit, Miller sent a long fly to Burns in center, Hoyt being held on first.
Peck worked Nehf for a base on balls.
Meusel out. With three on bases and two out Bob Meusel rated as one of the best American League sluggers, hit a dinky little fly which Bancroft easily caught.
NO RUNS, ONE HIT, NO ERRORS, THREE LEFT.

FOURTH INNING
GIANTS—Bancroft was called out on strikes.
Frisch out. He hit the first ball pitched down to Ward who threw him out at first.
Young out. Young hit sharply down the third base line to McNally who threw him out at first.
NO RUNS, NO HITS, NO ERRORS, NONE LEFT.

YANKS—Pipp filed to Young in right.
Ward singled to right.
Ward safe at second and McNally safe at first on Nehf's bad throw to second after fielding McNally's grounder.
Schang worked Nehf for a base on balls filling the bases, bringing Hoyt up with only one out.
Hoyt hit sharply to Rawlings who threw him out at first. Ward scoring on the play. McNally tried to score and was thrown out at the plate, Kelly to Smith.
ONE RUN, ONE HIT, ONE ERROR, ONE LEFT.

FIFTH INNING
GIANTS—Kelly fanned but Schang dropped the ball and had to throw him out at first.

FOSTER TELLS OF A VISIT TO RUSSIAN MUNITION FACTORY

Describes Plant And Life Of Workers Under Military Rule

EDUCATION THRIVES

Editor's Note: Mr. Foster, recently returned from Russia, where he spent four months as a correspondent. He describes in the following article a visit to a Russian munition factory.

BY WM. Z. FOSTER

NEW YORK, Oct. 6.—One day another American and I had the pleasure of addressing a large body of munition workers, and of looking about the plant in which they are employed, not far from Moscow. The incident was so typical of present-day conditions in Russia that perhaps American workers will be interested in reading an account of it.

After a 40-minute break-neck auto drive from town we arrived at the factory. It is a powder plant, specializing chiefly in making explosives and filling shells. We were met by a very friendly group of workers and escorted at once into the factory-meeting hall of the Communist group, where we had a rattling good meal of black bread, butter, milk, honey, and—fish. In passing I may say that in every institution in Russia where people congregate, organized Communist groups, equipped with meeting places, newspapers, etc., are to be found. They look after the political education of the people in their respective spheres.

Our meal finished, we started to make a tour of the plant. It was founded in the days of the czar, but at that time, however, it was not large. Only with the coming of the revolution did it take on importance. This was partly because the danger of invasion forced the general removal of munition plants from the western towns to Moscow and other more

REPUBLICANS GET TOGETHER ON NEW TAX COMPROMISE

WASHINGTON, Oct. 6.—A compromise tax revision plan which is expected to practically solidify the divided Republican majority of the senate will be submitted to President Harding today by Senator Lodge, the Republican leader.

The compromise, which will also be presented to the senate finance committee today as a substitute for the pending tax bill, was worked out and agreed to at a meeting last night of ten Republican senators. Besides Senator Lodge there were present most of the "agricultural bloc" Senator Capper of Kansas; McNary of Oregon; McCormick of Illinois; Kellogg of Minnesota; Lenroot of Wisconsin; Sterling of South Dakota; Willis of Ohio; Harrel of Oklahoma and Odle of Nevada.

The meeting was held at Senator Capper's residence and lasted until a late hour.

The compromise agreed to embraces the following essential provisions:

1.—Retention of the higher income surtaxes from fifty per cent downward which with the eight per cent normal income tax would impose a maximum of 58 per cent tax on large incomes; the pending bill provides for the abolition of all incomes surtaxes above 32 per cent.

2.—Reduction of the lower surtaxes from 32 per cent downward, with a sliding scale that would permit the greatest reductions to be made in those surtaxes imposed upon small incomes.

3.—Repeal of the so-called new nuisance taxes including candy, furs, jewelry, ice cream, eye glasses, sporting goods, etc.

4.—Adoption of the proposal of Senator Calder, Republican, New York, for a tax of \$6 on whiskey withdrawn from warehouses or bond.

5.—Repeal of the excess profits tax as of January 1, 1922 as provided by the pending bill and the house tax bill.

6.—Retention of the capital stock tax, instead of its repeal as provided by the pending bill.

7.—Repeal of the transportation taxes on freight, pullman and passenger rates. Instead of the retention of fifty per cent of them, as provided by the pending bill.

8.—Retention of the 15 per cent tax on corporations as provided in the pending bill, the house bill fixed this tax at 12 1/2 per cent.

It was unanimously agreed to oppose the plan of Senator Smoot, Republican, Utah, for a manufacturers' sales tax of 3 per cent.

Senators McNary and Lenroot were supported in their contention that the Smoot plan would discriminate against the agricultural interests and in favor of the manufacturers.

The meeting was reported to have been harmonious and it was predicted the compromise would prove acceptable to the entire Republican side with the possible exception of Senators Borah, Ida, Kenyon, Iowa, La Follette, Wisconsin; Norris, Nebraska, and Ladd, North Dakota.

Even Senator Smoot after securing a vote on his proposal was expected to swing in with what was confidently that would develop into the Republican majority tax plan it was stated.

WENNESDAY'S CROWD AT COUNTY FAIR BREAKS RECORDS; PAGEANT PLEASES; STOCK SHOW SUCCESS

Prospects For Thursday Crowd Were Excellent With Weather Man Behaving Perfectly—Pageant And Night Fair Closes Tonight—Fireworks Added New Attraction

One of the biggest Wednesdays in the history of the Coshocton-co fairs was enjoyed this year. It was the biggest both from the number of people admitted to the grounds, and the number of attractions on the grounds. More than 5,000 tickets were sold at the secretary's office on the grounds, not including membership tickets. Many more tickets were sold down town and at West Lafayette. Besides the people admitted on paid tickets, all of the school children of the county, Civil War veterans and their wives, and county infirmaries inmates were admitted free. It was estimated that the crowd that entered the fair grounds Wednesday would reach nearly 8,000 persons.

Prospects for Thursday were exceptionally. The weather could not have been better, and indications were Thursday noon that the ticket sale would be one of the largest on record.

Thru the efforts of the Coshocton-co Agricultural Society, a night fair that eclipsed any similar spectacle ever seen here, was presented on the racetrack Wednesday evening.

The first event was the stock parade, nearly a mile in length including many blue ribbon winning horses, mules and cattle. Under the bright lights erected for the purpose, the prize animals presented a wonderful appearance as they passed in file before the grand stand.

To sections of the grand stand were packed with spectators, and the third section, to the south, was filled with the children who took part in the mammoth health pageant. Beautiful costumes were worn by the children, and the clever dances and drills done by the children were well received.

After the pageant there was a complete display of attractive fireworks, lasting the greater part of an hour. The air was chilled during the evening but no one seemed to mind, and the two sections of the grand stand were packed from a half hour before the

CROSS PETITION IN DIVORCE ACTION IS FILED BY GEERTS

One of the forms of amusement indulged in by Lucy Geerts was that of throwing dishes at her husband, according to the answer and cross petition filed by Edward E. Geerts, to the suit brot for divorce by Lucy Geerts in probate court.

Justice E. G. Abbott, of Coshocton becomes a defendant to the cross petition of Edward Geerts thru his action in issuing a replevin warrant which permitted the plaintiff in the divorce proceedings to seize household goods belonging to the defendant.

After alleging in his petition that certain property in Fresno was owned by the defendant Lucy Geerts instituted the replevin proceedings and seized as her own, a part of that property according to the petition of Edward Geerts.

Geerts asks in his petition that Justice Abbott be restrained from completing the replevin, and that the plaintiff be enjoined from disposing of any of the property procured thru the replevin warrant until the divorce case is settled.

The couple were married February 5, 1916 instead of February 18, as stated in the plaintiff's petition, according to the defendant, and have two children.

Edward Geerts asks that he be granted the divorce, and the custody of the two children. C. Homer Durand represents the defendant.

SMALL CROWD AT RACES ENJOY THE WEDNESDAY CARD

Thirty-One Horses Start In Three Events With Local Steeds Winning

GOOD PROGRAM TODAY

Six hundred people witnessed the first day's racing program at the fair Wednesday. Starter Phillips, of Xenia and the judges occupied the new judges' stand, which has been constructed of concrete, on the same side of the track as the grandstand. The timers were comfortably housed in the new concrete timers stand, located on the site of the old judges' stand across the track.

Thirty-one horses started in the three races of the afternoon. The first race was the 2:24 pace and was won by Hugh C. bay gelding from the East stables at London, Ohio. He finished first in two heats, but was nosed out by Milton Wood in the third. All three heats were paced in 2:17 1/4. Thirteen horses started in this event, but Billy Grotton, a Chicago entry, fell while getting away, unsentencing the driver. She paced the first lap after regaining her feet and was stopped with difficulty in front of the grandstand.

The second event was won by Dr. G. P. Curry's horse, Bobby Onward, driven by B. F. Buzzard. After taking the first heat in the 2:21 trot the Coshocton horse was nosed out in the second heat by Hugh Seven, of the Linson stables at Grove City. The third heat was a race between the two horses, and at the quarter it looked bad for Bobby Onward. Buzzard drove him into a break and brot him back on his feet alongside the leading Johnson horse half way down the stretch. Another break put him several feet to the good, and he settled back on his feet in plenty of time to get under the wire in first position amid the cheers of the spectators.

The last race, the 2:14 pace was taken easily by Van Burn, chestnut gelding of the Vanatta stables at Newark. After Don, a Coshocton horse owned and driven by B. F. Buzzard was second in this race. The heat time was 2:14 1/4.

The summary:

Justice E. G. Abbott, of Coshocton becomes a defendant to the cross petition of Edward Geerts thru his action in issuing a replevin warrant which permitted the plaintiff in the divorce proceedings to seize household goods belonging to the defendant.

After alleging in his petition that certain property in Fresno was owned by the defendant Lucy Geerts instituted the replevin proceedings and seized as her own, a part of that property according to the petition of Edward Geerts.

Geerts asks in his petition that Justice Abbott be restrained from completing the replevin, and that the plaintiff be enjoined from disposing of any of the property procured thru the replevin warrant until the divorce case is settled.

The couple were married February 5, 1916 instead of February 18, as stated in the plaintiff's petition, according to the defendant, and have two children.

Edward Geerts asks that he be granted the divorce, and the custody of the two children. C. Homer Durand represents the defendant.

Our word for it!

You'll never know how delicious Corn Flakes can be till you eat Kellogg's

Positively—the most joyously good any-time-cereal any man or woman or child ever put in their mouths! Such flavor, such crispness! Such big sunny-brown Corn Flakes! How you'll relish a generous bowl-filled-most-to-overflowing; and a pitcher of milk or cream!

Never was such a set-out! Never did you get such a universal vote as there'll be for Kellogg's Corn Flakes! Big folks and little folks will say "Kellogg's, please, mother!" Leave it to their tastes—and yours! Prove out all we say!

For, Kellogg's Corn Flakes are a revelation in flavor; a revelation in all-the-time crispness! Don't just ask your grocer for "corn flakes." That brings you most anything! Say KELLOGG'S CORN FLAKES—they're wonderful!

BANKS INVOLVED IN HAITI'S DIFFICULTY

WASHINGTON, Oct. 6.—Failure of the United States government to provide a definite policy for the development of Haiti in 1918 when pacification had been accepted by the marines was blamed for subsequent uprisings in the island republic by Roger L. Farnham, vice president of the national city bank of New York in testimony today before a special senate committee investigating the Haitian occupation.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a yellow complexion—dark rings under your eyes—pimples—a bilious look in your face—old eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 15c and 30c.

STATE AND FEDERAL LIQUOR LAW CHIEFS ARE IN CONFERENCE

WASHINGTON, Oct. 6.—Ohio Prohibition enforcement problems and measures necessary to force more rigid observance of dry laws formed the subject of a conference today between Prohibition Commissioner Haynes and Joshua Russell of Columbus, Ohio, Ohio prohibition director.

The conference with Russell is one of several planned with directors of different states with the object of effecting a more complete compliance with the regulations issued by the internal revenue bureau and the prohibition unit.

Many state organizations are failing to co-operate fully with the federal authorities at Washington it was indicated today by new instructions sent to all directors by commissioner Haynes. He said the requirements of the bureau that careful check shall be made on permits issued for the liquor withdrawals are being ignored in some quarters. Haynes directed that infractions of the bureau rules must stop, and said that disciplinary action will be taken by the authorities supervising enforcement if further failures to co-operate actively, are noted.

Directors or other officials will be called upon to explain such laxity as inspections may show, are being counted announced by supervising officers.

"GETS-IT" THE CORN AND CALLUS PEELER

This Corn Remover is Guaranteed Relief from corn suffering follows the application of "Gets-It" almost as quickly as pain follows the thrust of a pin or knife into the flesh. CUTICURA HEALS CHILD'S ECZEMA

On Face, Neck and Behind Ears. Itched and Burned.

"When I was a child my face, neck and behind my ears were covered with a rash. I scratched it so much that it turned to watery eczema. The skin was inflamed and itched and burned, and I would scratch until it would bleed, which caused the skin to be red.

A friend recommended Cuticura Soap and Ointment and after using four boxes of Soap and two boxes of Ointment I was completely healed." (Signed) Miss Thelma Robinson, 503 No. Spruce St., Vicksburg, Mich.

RAILWAY DEMANDS NOW TOTAL ABOVE BILLION DOLLARS

WASHINGTON, Oct. 6.—The total claims against the government as the result of operation of the railroads during the war will probably aggregate \$1,087,000,000, Director General of Railroads Davis today reported to the president.

Director Davis reported that to October claims filed totaled \$856,000,000, the secretary claims having been filed by roads with a total mileage of 184,384, representing 78 per cent of the total mileage of 241,000 taken over by the government.

NOTHING DAUNTED

(Continued from Page One) their Manhattan rivals but they licked the pitcher who figured to annoy them most. Now with Hoyt and Harper to come, they feel they are riding pretty. They don't believe McGraw has another pitcher who can hold them as well as Phil Douglas did.

Bottom on the series took a turn in favor of the Yanks today but the odds have not shortened as much as they would if the verdict of the first game had been reversed. The backers of the Giants were asking 8 to 5 against the Yanks to win the series but in many instances were getting better odds from persons who believe the Yanks will play every game as they did yesterday.

The Yanks are also 7 to 5 favorites to win today game no matter who pitches.

The sum and substance of the first game was that Douglas was good but Mays better.

No one knows for a certainty who will pitch today. As Mays was considered a sure starter for the Yanks yesterday, so Waite Hoyt, the Brooklyn lad is nominated by acclamation this morning.

A rumor persists that Bob Shawkey will be given his chance by Huggins this afternoon. The Yankees can afford to gamble a little, tho, of course, two straight is much better than an even break.

The Yanks expect to see Hoyt win if they can give him as many runs as

RAILWAY DEMANDS

SHAWKEY is a pitcher whose style should bother the Giants. He is a World's series veteran, a cool and resourceful performer and a game guy. If Huggins pitches Shawkey today and wins with him, the Yanks will be hot favorites, for it will mean there is a third good right hander to couple with Mays and Hoyt. This trio would not need much help. If Shawkey should lose, Hoyt could drop in tomorrow. Huggins is noted for his conservative tactics.

The Yanks look bad against Dick Kerr he has a style something like Nehf. If Nehf can inveigle Ruth into reaching out for his cross fire, the big gun of the Yanks may be spiked. But Nehf must reckon with Bob Meusel, who spans left handers. That battling order of the Yanks is hydra-headed.

KENTUCKY GIRL WRITES LETTER

How She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Sunnyside, Ky. — "I suffered for more than two years with my back and nervousness, and was not able to help my mother do the housework. I took treatment from two doctors and they did not do me any good. Mother saw Lydia E. Pinkham's Vegetable Compound advertised in the paper and I took about ten bottles. It has done me a great deal of good. I weigh 132 pounds and am in good health. I will gladly recommend Vegetable Compound to anyone who suffers with the troubles which I had, and you are welcome to publish my testimonial." —VELMER HENDRICK, Route 1, Sunnyside, Ky.

To many American girls life is often a heavy drag in consequence of illness, and every mother should heed the first manifestations, such as cramps, backaches, headaches and nervousness as Mrs. Hendrick did for her daughter, and give Lydia E. Pinkham's Vegetable Compound a trial. For over forty years this fashionable root and herb medicine has been relieving women of just such troubles.

SLATED FOR JOB AT ARMS PARLEY

Rear Admiral Robert E. Coontz.

Rear Admiral Robert E. Coontz, chief of naval operations, is prominently mentioned as the naval member of the advisory commission which will supplement America's delegation to the conference on limitation of armament at Washington this fall. Admiral Coontz has served in the navy since 1887.

Upon their return they will be at home to their friends in West Lafayette.

Mrs. Ray Reynolds and son Richard of Trivay, will be guests over the week end of Mrs. Reynolds' parents, Mr. and Mrs. J. B. Sharpless, in Warsaw.

You don't hafta help pay D. O. Thompson's rent, thais why you can buy men's heavy fleece \$2.00 union suits for \$1.29, try to match them.

In compliment to the Rev. and Mrs. Charles Ray, of Conesville, who are leaving soon for White Cottage, where the former has accepted a call, more than fifty friends gave them an informal farewell party at their home, Tuesday evening.

In appreciation of the Rev. Mr. Bay's untiring efforts, a generous sum of money was presented by the guests.

After enjoying music thruout the evening, delicious refreshments were served. Origin of Name Wood.

That the first who bore the name Wood dwelt near or adjacent to a wood there can be no reasonable doubt, for the name first appears as Atte-Wolde, which meant "at the wood." Later the name became Atwood and in some cases this was changed to Atwood, which was later contracted to Wood. Sometimes it remained Atwood, a name that is still to be found in England.

PEOPLE'S FORUM

A ONE-MAN GOVERNMENT

Editor the Tribune:

Foreign governments owe our government eleven billion dollars. America is staggering under a war debt of more than twice this amount and we are forced to borrow money to meet our obligations.

In the face of this deplorable condition President Harding and his financial secretary, Mr. Mellon, are allowing our foreign debtors to pay at their own convenience—if they are to pay at all—the billions they owe us and these officials are refusing altogether to collect a dollar of the hundreds of millions overdue in the form of interests.

The truth is that if our government press its collections Mr. Morgan and his friends would have to wait for the payment of the money due them. Consequently, Harding, Mellon, et al.,

the true friends of all-st, will make Uncle Sam stand idle until Morgan and his associates get theirs. In the meanwhile the people can be taxed to death to raise the money needed to run the government.

A few months ago Morgan and some of his Wall-st friends who had loaned money to the foreign nations visited Harding at the White House. Mr. Mellon was called in to get Morgan's view first hand. A few days later Mr. Morgan was back conferring with Mr. Mellon. Just eleven days later a bill was introduced in the senate giving Mellon absolute authority over all the loans of the government to the Allies.

I want to ask, what do the readers of the Tribune think of such an arrangement. I wouldn't be allowed to print what I think.

6th St. Theatre

If you have a sense of humor at all don't miss the production "Hello Broadway" that is scheduled to be played at the 6th St. Theatre tonight. Just leave it to Billy Allen's experience in selecting the proper plays to please and take his tip that this show is sure provoker of laughs. "Hello Broadway" is a real laugh letter. If you are a grouch, come anyway and dare "Hello Broadway" to make you laugh. The dare will be "taken" and what's more Mr. Grouch will get the surprise of his life. Then there is an abundance of music, "dreamy music," jazz music, classical music, in fact every kind of music you can imagine and it is interpreted by different types of singers, whose numbers are augmented by 14 chorous beauties. The correct definition of Hello "Broadway" is a potpourri of female loveliness, tuneful melodies, funny situations and novel specialties. Last night a record house enjoyed "The Ragtime Wedding," which lived up to all its advanced claims.

THURSDAY Health Talk,
No. 77

By R. E. Lynch, D. C., Ph. C.

—The principle characteristic of rheumatism is pain. There is dull and continuous aching, with severity and sharpness at times. If the pain would stop for intervals it might be bearable, but the fact that it is continuous is what makes rheumatism the most dreaded of diseases.

—The cause is weakened functioning of the kidneys, due to displacement of spinal joints at what is known as "kidney place." This displacement causes pressure on the spinal nerves. Chiropractic spinal adjustments restore the spinal joints to alignment and with the pressure removed the kidneys act normally and the disease gradually clears.

Suffered Two Years
Then Found Help

"For two years prior to consulting a chiropractor I suffered with rheumatism. In August 1919 the pain was so intense that I was unable to move. After the first chiropractic spinal adjustment the pain was reduced. I continued until December when I was discharged. I have been showing horses ever since. SAN ANTONIO, TEX. OCT. 6—
There will be no parade by masked Ku Klux Klan men in San Antonio. This was the plain statement made to

scale upon which "The Four Horsemen" was planned and the lavish way in which the details were worked out by the director, Rex Ingram, from the screen adaptation by June Mathis.

The financial expenditure reached a million dollars and the people employed ran into thousands. Over six months were required to complete the screening, and then to cut down the eighty-five miles of film into an evening's entertainment was in itself a herculean task.

It has been proclaimed that the Metro Pictures Corporation's presentation of this remarkable picture at the Sixth Street promises to be the big amusement event of the year.

POLICE CHIEF MINCES NO WORDS WITH KLAN

SAN ANTONIO, Tex., Oct. 6.—There will be no parade by masked Ku Klux Klan men in San Antonio. This was the plain statement made to

IN THE DISTRICT COURT OF THE UNITED STATES FOR THE SOUTHERN DISTRICT OF OHIO, EASTERN DIVISION.
In the matter of Frank A. McGarrity, Bankrupt. In Bankruptcy No. 4017. Notice to creditors to consider composition offered by bankrupt.
Take notice, that a meeting of the creditors of the above named and bankrupt will be held at my office in the Freew building, City of Coshocton, State of Ohio, before the undersigned Referee in Bankruptcy, on the seventeenth (17th) day of October, 1921 at one o'clock P. M. for the purpose of considering a proposed composition made by the said bankrupt to his creditors in satisfaction of the unsecured debts owed by him to each of said creditors, which proposed composition is to pay forty per cent. Said forty (40) per cent upon the confirmation of this composition and notes for fifteen per cent due in three months from the date of confirmation, and notes for fifteen per cent due in six months after the date of the confirmation of this composition.
H. S. LYBARGER, Referee in Bankruptcy.

In Defense of Corsets.
Sir James Cantile, the great surgeon and authority on tropical diseases, is a warm defender of corsets. In his opinion the comparative absence of liver troubles in women is due largely to the equable temperature their bodies obtain through wearing corsets. And more boys than girls die in childhood because the former do not wear corsets. He urges men to wear corsets—a strip of flannel around the waist—to give them the protection that corsets give to women.

Here's an International Case.
In a case recently before a London court the presiding judge was English, the plaintiff was an American, his counsel a Welshman, the defendant a Dutchman and his lawyer an Irishman.

First Trolley Car.
The first street car in the world operated with a wire suspended overhead, commonly known as a trolley wire, was in Kansas City, May 1, 1885, on a line south of Westport, an extension beyond what was then known as the "Westport Horse Car Line."

Mother Spoiled It All.
While Kays still in school, I attended an evening party at the home of one of my girl friends, writes a correspondent of the Chicago Journal. When it was time to go, there were two fellows who wanted to take me home. I was very much flattered and accepted them both. One of the boys appealed to me strongly and I imagined myself deeply in love with him. But, as it was getting late, and my folks were worrying about me, my mother set out to meet me. When she saw me with a fellow on each arm, she was scandalized and started to scold, while the boys, very much frightened, ran away.

Annual Rainfall.
There has been recalculated from recent data the amount of rain annually falling upon the earth's surface. It is found that it is equivalent to a layer of water of the uniform depth, for the whole globe, of about 33 1/2 inches. The amount falling on the land is equivalent to a uniform depth of 29 1/2 inches. Considering only the land which is drained by rivers flowing into the sea, it is calculated that only 30 per cent is returned to the ocean, and that the rest is removed by evaporation.

Steel Engraving.
Steel engraving is not named for any individual, but is a process of engraving lines on steel plates, from which prints are taken. Steel plates were first used for engraving about 1820. Between 1820 and 1870 this form of art enjoyed a great vogue. The lines are cut into the steel with a burin or graver, a four-sided piece of steel cut off obliquely at one end, producing a sharp point. After the lines are scraped out another tool is used to smooth out and burnish the design.

Concerning Wood Dreams
To dream you are in the woods signifies wealth. To dream of a wood-cutter denotes good luck. To dream of a woodman signifies embarrassment. To dream of wooden shoes signifies a hasty journey. To dream of a wood snake denotes slander. To dream of wooden spoons shows an avaricious and hard-hearted neighbor. To dream of a woodpile shows a man in love with some ill-natured woman. To dream you are in a woodyard denotes a happy change of fortune.

Big Army of Gunners.
There were 3,895,122 licensed gunners in this country last year, and it is said that there are as many more who hunt game illegally. Of the total, there are about 200,000 women. Pennsylvania leads the list with 401,130 hunters' licenses granted.

How "Doc" Won Promotion
By HAROLD SINCLAIRE
(© 1921, Western Newspaper Union.)

Doc Newton was out of a job, and that situation was becoming chronic. Never a brighter, brisker, more accommodating fellow than he, with friends everywhere; but the railroad company did not seem to want him, and the young fellow began to wonder if there was a black list, and why he had become its victim.

The roundhouse foreman could have explained the situation, but he thought too much of Doc to hurt his feelings. The boys on the dog watch could have enlightened him, but they prized his company, and sincerely hoped that things might take a turn for the better.

The truth of it was that Doc got "wild" every time he touched a locomotive throttle. To him an engine was a living thing, a vital steam horse that loved to show its paces; and never was there a more spirited driver than Doc.

Once he had run No. 24 on the wrong track where the depot grounds came low, and knocked off the smoke-stack. Later he had dumped locomotive and tender into the turntable pit.

"Was never a second late, clipped right along, and always claimed the right of way," explained Doc dauntlessly, deeming the minor mishaps mere trivial incidents.

Doc believed he was still on the "extra" list, but never got a call to go on duty for a whole month.

"Tell you, Ruth," he said to the fair devoted girl who was the one star of hope and beauty in his firmament, "I believe I'll try some other trade in some other town."

Ruth cried for a time. That ended Doc's determination. He went back to the roundhouse grimly.

Then, nobody was working one long-to-be-remembered February night. It had been a hard day for railway service. Nothing was sent out from Crofton, but at seven o'clock, on regular schedule, Doc walked into the doghouse with the business-like air of a man ready for work and expecting it.

"What did you wade way down here in the snow for?" inquired Foreman Bros.

"Oh, something may turn up," retorted Doc, with his usual optimism. Something did turn up—the biggest thing that had happened in the reckless, impetuous life of Mr. Doc Newton. It was the unexpected appearance of the president of the road.

"Bross," spoke the official sharply. "I must make the junction at Clay City in time to stop the night express on the Northern. Give me your best locomotive, a shallow caboose and a hustler, and do it quick."

"I'm your man," spoke up Doc promptly, rising to his feet.

"You'll have to fire," announced Doc, ironically, taking his place at the lever.

"I did it once—I guess I can qualify this time," replied the official.

They ran the first ten miles in fourteen minutes, but struck a trestle a foot under water, and blocked with drifted wood. Then there was a whip-lash sway and the engine cleared a bridge just as a break in a dam carried its center pier away.

"We've made it," panted Doc, as they rounded a hill and came in sight of Clay City, to see the Night Express on the rival road steaming down the rails a mile distant. "They've given her the right of way," he shouted as they neared the interlocking tower.

"You must stop that train," cried the railroad magnate.

"I'm going to," said Doc grimly. He halted squarely across the tracks, a barrier to the oncoming express.

The official jumped from 101, ran to the halted train, waved his hand to Doc, and the dripping engineer knew that he had won the day.

It was the talk of the road next morning. It was known that upon the Night Express was a railroad king, whom the president of the Southern had to intercept before he reached the city. A first interview with him blocked a ten million dollar deal with a rival railroad.

Two days later the president of the road walked into the doghouse. Doc sat patiently awaiting work.

"Newton," called out the official, advancing and extending his hand, "there's a check for a thousand dollars going through the mails for you from headquarters. You can go to work tomorrow on the regular list."

"What locomotive?" asked Doc.

"Newton," replied the magnate, with a grim smile, "I wouldn't trust you with the oldest rattler on the road. After that dash three nights since, big as it was, I see that you would make the slowest accommodation a regular limited. No, you start in at \$2,500 a year as a division inspector."

"Ruth," observed Doc to his fiancée an hour later, "the president of the road won't trust me with a locomotive because I insist it show its paces. You will trust me with the oldest little wife in the world, though, won't you?"

"Meaning me?" smiled Ruth lovingly. "Do you think I'm not proud of the honor? You showed what real running was anyway, and you are the only man on the road that could do it."
